

Technology Breakfast Seminar

How Tech Companies can ride the Autonomous Vehicle and Smart City Wave

Tuesday 27 June 2017

We are delighted to invite you to our next Technology Breakfast Seminar being chaired by Simon Halberstam – Head of Technology Law, Simons Muirhead and Burton.

Our speakers will be Nathan Koren and Raoul Lumb.

Topics that will be covered are:

- Self-driving cars vs. driverless cars: what's the difference?
- Smart-Cities - the technological implications and opportunities
- Key technologies for enabling driverless cars
- How driverless cars will change society, economics, and politics
- Threats and opportunities for the tech industry on the road to autonomy
- Personal data implications of autonomous vehicles and smart cities?

RSVP: To register your interest or to request further information please email Invite@smab.co.uk or call 020 3206 2700

Speakers

Nathan Koren

Founder & CEO, Podaris Ltd

Nathan Koren is an architect, transport planner, and entrepreneur. Having worked for many years as an architect specialising in sustainable transit-oriented developments, Nathan became interested in how new transportation technologies could positively influence urban design. He joined Ultra Global PRT in 2008, where he worked as Project Studies Manager, responsible for the feasibility-level planning and design of urban-scale Automated Transit Networks. In 2011, he continued this work as a vendor-neutral transport planning consultant for Capita Group PLC. More recently he has founded Podaris Ltd. Podaris Ltd. — an online collaborative planning and design platform for urban infrastructure.

Nathan holds a Bs.D in Architecture from Arizona State University, and an MBA from Oxford University.

Raoul Lumb

Associate

Simons Murihead and Burton LLP

Raoul is a specialist commercial technology lawyer who helps his clients with a wide range of contractual, data protection and intellectual property issues. His clients range from start-ups to listed multinational companies and include software developers, digital agencies, virtual reality producers, crowdfunding platforms and online gaming services.

Raoul has experience of representing FinTech clients and negotiating software licensing deals with most of the world's major banks (including JP Morgan Chase, Lloyds, Barclays and HSBC) as well as representing clients in negotiations with European manufacturing companies and research institutions – including advising on the supply of robotics hardware to the European Organization for Nuclear Research (“CERN”).

Raoul read law at Oxford and regularly appears on the BBC as an expert commentator on technology issues.

Chairman

Simon Halberstam

**Technology Law Partner
Simons Muirhead and Burton LLP**

Simon has over 25 years of experience acting for technology providers and digital agencies. His work is focused on the drafting and negotiation of contracts for those providing or procuring technology or digital services. He advises on all aspects of Intellectual Property, as well as providing guidance to companies wishing to set up online gambling operations.

Simon holds English and French Law degrees.
